Plaintiff Motion To object To THE  
Magistrate Judge Recommendation

I Richard Wayne Wright, Sr., Pro-se., Plaintiff Filed this said encaption motion in objection to the district Court Magistrate Judge, Honorable Charles S. Coody (Chief Magistrate) recommendation to deny plaintiff motion's which were pass down on the 5th day of January, 2006. Plaintiff Filed a motion For a physical examination on December 15, 2005 (Court Doc. No. 93) For the Following:

1). Prison Health services (P.H.S.) have Failed here at Ventress Correctional Facility (V.C.F.) to properly acknowledge plaintiff Wright health problem's in their assessments. Plaintiff Wright has repeatedly Filled out sick Call slips For certain health illnesses. Popping in joints, Vision problems Frequent head-

aches, allergic reactions to tuberculosis (T.B.) skin test (Sterile aqueous solution) allegedly <sup>R.W.W.</sup> 'Aplisol' (according to the insert plaintiff was given by defendant N. Burks), outbreak of sores on outer skin (chin, hands, and feet) ect. These illnesses has even been minimized often, sometimes even untreated and at other times totally disregarded.

Plaintiff has good reason to believe defendant's past use of psychotropic medication (psy. Med.) upon plaintiff contributes to these elements. Plaintiff recalls the notice of In-Voluntary medication hearing written document prepared by mental Health Management (M.H.M.) Plaintiff is not sure which (M.H.M.) team's member written this document (Dr. Sanders Dr. Smith, or Ms. Gorman). It is puzzling what member of (M.H.M.) team at Bullock Correctional Facility prepared this document at (B.C.F.) in Dr. Hammer name. What is even more confusing is 'how' could the preparer of this document assert:

- a). Serious harm to other.
- b). Being unable to perform such life sustaining functions as eating and drinking.
- c). serious deterioration in functioning.

These Subsection were marked under the heading "The hearing is being Conducted because you have been diagnosed with a serious mental illness and you are Considered to be at Risk For:" Sub-Section (d). Serious harm to yourself and (e). Serious property damage. These two (2) were left unmark. Plaintiff has no way of knowing with out the aid of this Honorable Court For an order placed upon defendant(s) (P.H.S.) employee's / defendants and (M.H.M.) team at (B.C.F.) to produce <sup>R.W.W.</sup> a Copy of the said documents "Notice of involuntary Medication Hearing" and a copy of the involuntary medication Review Committee written decision, if the descision authorized involuntary medication "why" defendant are waiting to administer [their] recommended medication and did not administer it then. It is Confusing "how" Could the preparer of the "notice of involuntary Medication hearing" assert such statements as 'serious harm to other (in prison) (which [they] do not specify "Whom" [they] are referring to as 'other') it is equally unclear what type of harm (physical or mental and / or both). One thing plaintiff is sure of (according

to their document) defendant's are not Concern about any Serious harm plaintiff Could Cause [himself]. Two things are Certain Subsection (d) and (e) were not [their] Concern at that time. One of plaintiff major Concerns are unexplainable weight lost at times vary From the range OF Fifteen (15lbs.) to Seven (7lbs.) pounds. Defendant's Dr. Rayipati and Dr. Siddiq minimized plaintiff recent injuries as well because they were Cause intentionally and directly by prison OFFICIALS at Ventress Correctional Facility (V.C.F.) on November 23, 2005.

### Conclusion

IF plaintiff is going to be properly diagnosed and [his] health problems properly assessed it's going to have to be by a physician(s) 'who' does not have their own interest at heart (e.g. if they properly assess plaintiff injuries/health illnesses 'they' could Face repercussion and lose their job), and not the interest of the plaintiff health Care needs / attention. For

Objection TO Magistrate Judge Recommendation

Such reasons indicated in this said motion plaintiff prays this Honorable Court reconsider its order to deny plaintiff motion for a physical examination and grant plaintiff such physical examination at the most appropriate time this Honorable Court deems fit. IF this motion is not in its proper form plaintiff ask that this Honorable Court construed it into its proper form.

Done this the 10th day of
